

About Us

Kevin Dahlke Insurance Brokerage was established in 1981 with the idea that insurance doesn't have to be a frustrating, complicated and expensive process for the consumer. Reducing Risk and Minimizing Costs When you buy insurance, you need an advocate who will properly assess the risks you face and give you an objective analysis of the marketplace. The approach I have developed over the years involves several strategies that are effective in reducing risk and insurance costs. Personal Service and Attention As the owner & sole point of contact for all underwriting and strategic decisions, I represent you the client, not the insurance carrier. Being an independent broker, I am free to match the best carrier for your insurance needs: I do not work for an insurance company; I work for you. When a loss occurs I see that you get fair, prompt payment and service. Trusted Protection I provide service to residents and business owners in California seeking an advisor who can provide broad coverage through top carriers offering competitive low rates. Through access to a carefully selected group of financially solid, reputable insurance companies. I offer you the customized coverage at the most competitive prices. All firms are rated "A" or better by A.M. Best Company and approved by the California Department of Insurance.
