

Business Insurance - Our Approach

Providing insurance to the business world takes more than just being insurance agents. It takes experience, knowledge, and the willingness to step up and do the job right - the first time. Kevin Dahlke Insurance Brokerage provides a complete range of traditional and non traditional insurance programs. In addition to our full service general business insurance, I have designed specialized programs for a wide variety of business and professions.

Commercial insurance pricing can be a complex issue. That's why it's a good idea to have your property, liability and other commercial property and casualty insurance expenses and premiums audited regularly to identify any factors that could drive up your costs, and provide a chance to take corrective action. What's Right for Your Company? Selecting the right coverage for you and your company can be complex. The product or service you provide, the way it's distributed, the raw materials you use, the size of your workforce, your loss experience, and your in-house safety procedures all have a bearing on the extent to which an insurance carrier is willing to provide coverage. That's why you'll need the experience of a firm like Kevin Dahlke Insurance Brokerage to help you choose the right insurance products. You can be confident that I will do everything possible to find the ideal combination to suit your needs.

Whether you are a manufacturer, wholesaler, retailer or just about any type of business, I can tailor a program to match your needs.

As a Commercial Insurance Specialist I can custom design an insurance program for your business, whether you are self employed or multi-location company with hundreds of employees. Every business has different needs, and I will work with you to determine the proper insurance coverage at the best possible price.
